

VERACROSS[®]

Services Partner

Veracross Services Partners are project implementation and product experts who work closely with our Veracross Implementation team.

The Veracross Services Partner (VSP) Program provides needed implementation and/or support services to Veracross schools, enabling successful implementation or maintenance of Veracross software.

Veracross Services Partners can assist, as needed, with implementation project management, data migration, system configuration, report writing, technical assistance, training, and more.

See how Veracross Services Partners can help your school. VSPs:

Work hand-in-hand with you and the Veracross Implementation team to ensure your objectives are met.

Project manage internal tasks, decisions, and communications across key school stakeholders.

Augment your team with additional technical expertise for data migration or configuration.

Provide additional personalized user training online or onsite

“Working with a Veracross Services Partner during our implementation provided us with a boost along the learning curve – especially in query creation. Bringing a knowledgeable resource on board helped us hit the ground running.”

- **Meg Macri**
Director of Advancement Services
Buckingham Browne & Nichols School

“Changing systems is like replacing an airplane engine while you are in the air. Having an extra pair of dedicated, knowledgeable hands working with you is invaluable.”

- **David Pannepacker**
CFO
Germantown Academy

Why Veracross is the preferred solution for K-12 private schools around the world:

1 Purpose-built for independent K-12 schools

3 Proprietary “One Record for Life” architecture

2 100% web-based, SaaS from-the-start solution

4 Unlimited integration options with Veracross API
