

Power Up Your Accounts Payable Processes

Supercharge your school's financial operations with seamless AP automation from Alii and Veracross SIS —saving time, creating a paperless environment, reducing errors, and boosting efficiency every step of the way.

How it Works

Automated Capture:
Alii extracts data from incoming invoices automatically.

Real-Time Sync:
Data is updated in Veracross instantly.

Approval Workflow:
Alii automates notifications and approvals.

Efficient Payments:
Approved payments are processed through Veracross.

Why Choose Alii & Veracross for Accounts Payable?

End-to-End AP Automation

Automate your accounts payable workflow, from invoice capture to payment processing. The Veracross integration ensures smooth data transfer between systems, cutting down manual tasks and speeding up payment cycles.

Streamlined Approval Workflows

Enhance your approval workflows for quicker invoice processing and better control. Notifications and tracking ensure no invoice is missed and approvals are timely.

Real-Time Financial Visibility

Get real-time visibility into your school's accounts payable with accurate, up-to-date data synced between Alii and Veracross. Access comprehensive reporting and analytics to make informed financial decisions.

Automatic Invoice Capture & Data Entry

Capture, read, and process invoices, removing the need for manual entry. Integration with Veracross ensures data is instantly available, reducing errors and maintaining accurate financial records.

Alii is the seamless, software-agnostic accounts payable solution designed to streamline financial processes for schools.
